OUR MISSION

We provide businesses with innovative solutions to meet all IT and Connectivity needs. We have a UK-wide network of highly-skilled engineers to ensure that each project we undertake is completed on time and to an exceptionally high standard.

THE CORDNET EXPERIENCE

Rapid 4G Antenal Installs, Network Package and Data Plans

We are one of only a handful of companies which offer a full-service 4G install and network package. We currently survey, install and service sites across the UK, providing full WiFi connectivity to sites with limited access. We can also provide complete data SIM plans with direct support.

In-House Engineers

Unlike other IT Service Providers, we have a team of in-house expert engineers meaning that we don't rely on outsourcing engineers for jobs.

4-Hour Response Time

As our engineer's are in-house, we can offer our clients a coveted 4-hour response time. This ensures that should you have any issues, you can rely on a member of our team getting you back up and running as soon as possible.

PEGASUS EXPRESS

Pegasus Express is a leading freight and logistics company providing palletised freight solutions across the UK. The company requires expert, outsourced IT support across 5 sites throughout the UK. Reliable service and innovative solutions are the main features the client is looking for in a partner.

Cordnet Ltd provide bespoke IT Site Solutions to facilitate and improve site operations.

APPROACH

Cordnet have provided complete IT support to Pegasus since 2015 as the sole IT partner covering all sites. We provide an efficient and reliable service with our team of on-call engineers to ensure the full connectivity needs of the business are met. Projects in the past have included full site comms set up for each hub and bespoke hardware solutions to facilitate business growth.

KEY HIGHLIGHTS

MULTI-SITE NETWORK MANAGEMENT

- o End user hardware set up with ongoing support - including PC's, Scanners and Security Systems.
- o Ongoing server maintenance and support
- o Implementation of Cloud-based services.

END-TO-END 4G DATA SOLUTIONS

- o Rapid 4G install
- o Wifi throughout entire site
- o Coms cabinet and Data Points

COMPLETE INSTALLATION OF ON-SITE COMMS NETWORK

- o Complete Cordnet data plan
- o Comms Unit and Data Points
- o Bespoke wifi extension to provide connectivity to remote site.
- o IP Phones and conference equipment installed and serviced.

RESULTS

Increased productivity
Improved site connectivity
Reliable IT infrastructure with on-call, expert support.

"We know we can rely on Cordnet to ensure our IT systems are available 24/7, proactively minimising any connectivity issues, which in turn improves our ability to meet the needs of our customers. The team at Cordnet have taken the time to thoroughly understand our business, and offer us a truly bespoke solution that evolves as our business needs change." - J. Cowie, Pegasus Express
